

 **DIVERSIFIED MEDICAL MANAGEMENT**
Health Care Industry Consultants

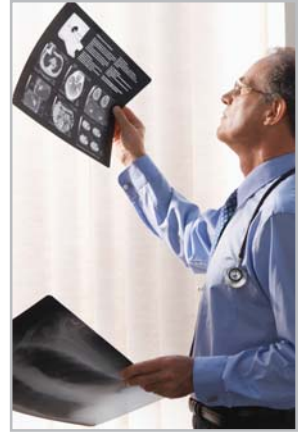

Diversified Medical Management: a leader in health care consulting.

Health care providers face growing challenges from increasingly stringent legislative constraints and declining reimbursement rates. The uncertainty of the current health care landscape presents unprecedented requirements for expertise and sophistication.

We bring in-depth health care expertise to address the diverse spectrum of organizational and financial needs of health care providers. From compensation and productivity analysis to practice acquisition and restructuring, Diversified Medical Management can help you maximize return and minimize risk.

Providing a broad range of services to assist health systems and physician groups successfully navigate the complexities of fulfilling their mission.

The strength of Diversified Medical Management lies in the strength of our people. Our professionals draw on an impressive range of skills and credentials. The Diversified Medical Management team of certified public accountants, certified valuation analysts, and health care specialists can meet your needs in a cost-effective, highly professional manner.

“Diversified Medical Management is a consulting firm that provides a top quality service at a reasonable price. They relate well to physicians and have a track record of putting them at ease, even when confronting sensitive or difficult issues.”
